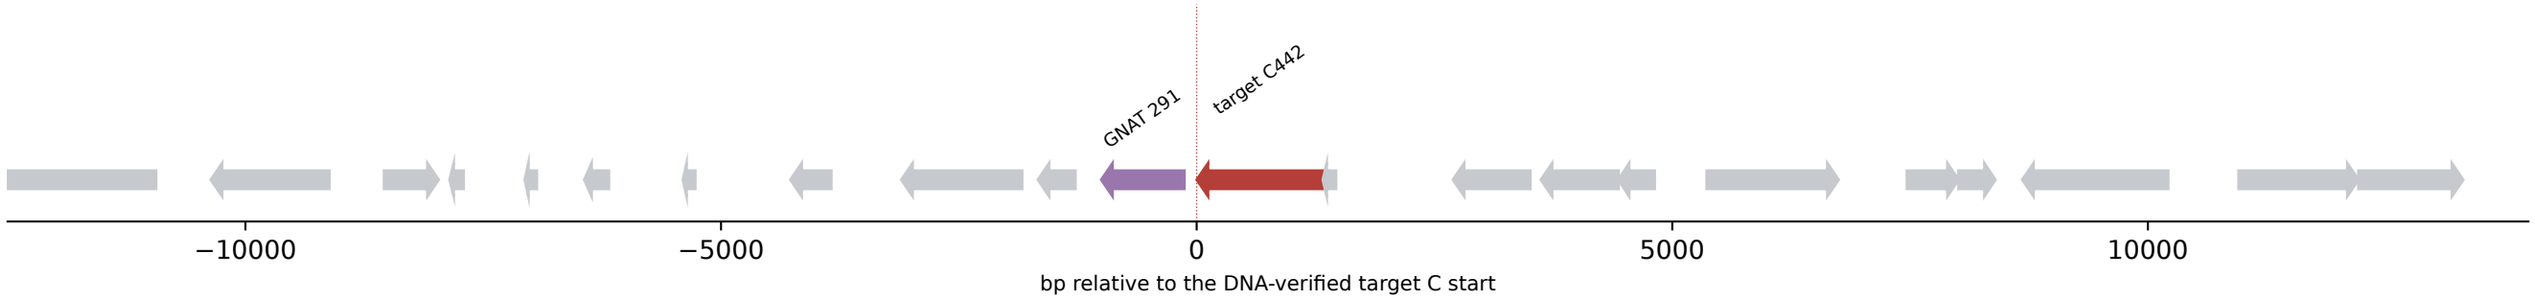
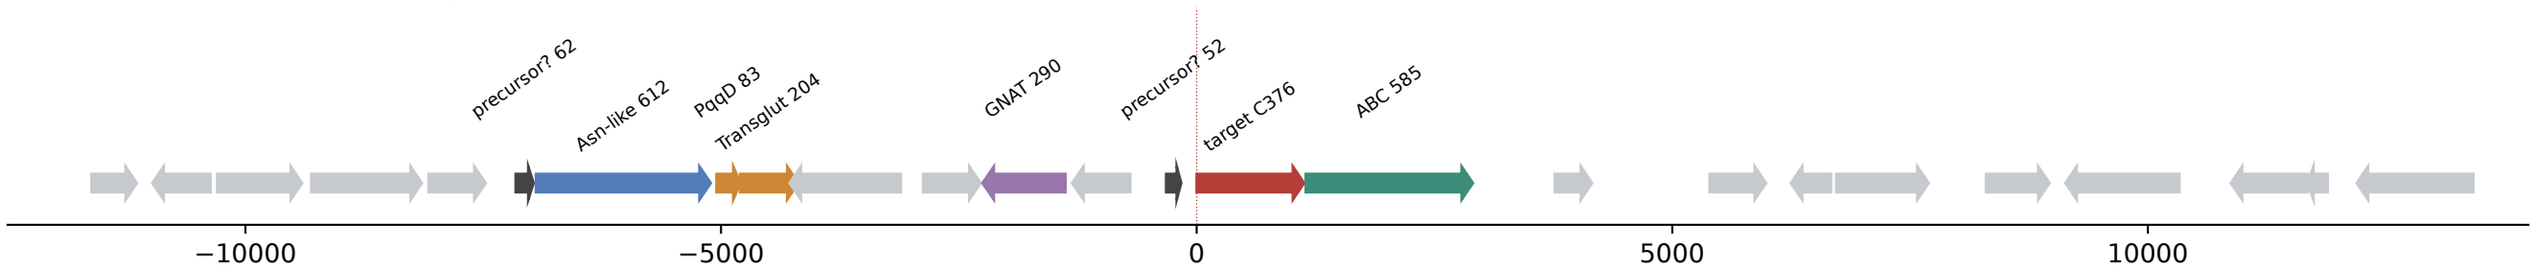
Four Nature systems: native genomic context

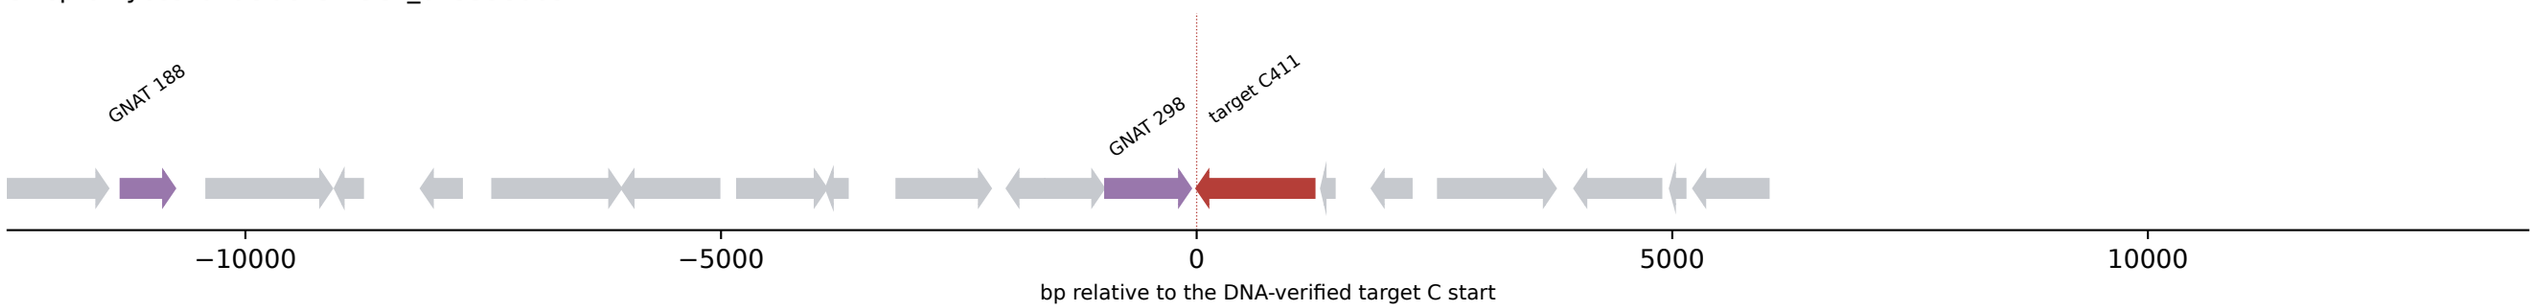
Streptomyces sp. B15 · GCF_018070605.1



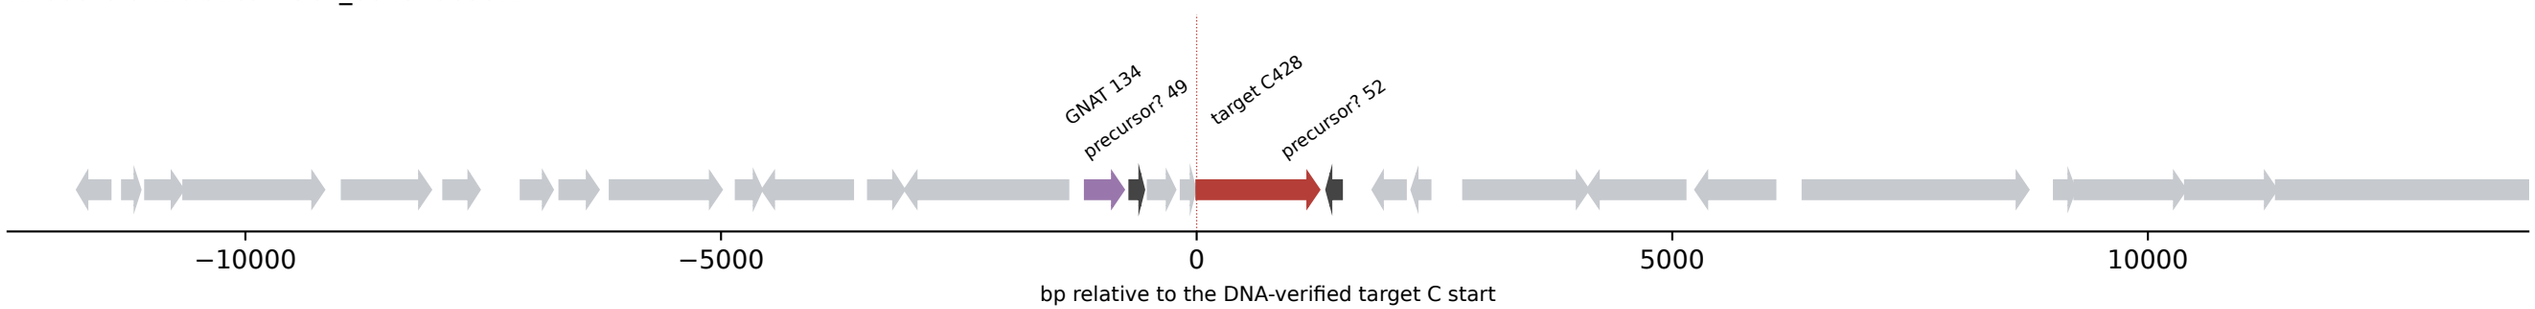
Streptomyces griseocarneus · GCF_017356985.1



Streptomyces lunaelactis · GCF_013358065.1



Kribbella antibiotica · GCF_004349055.1



Labels show native annotations or domain families; activity and exact BGC boundaries are unproven. Grey: other annotated genes. Nearby loci remain distinct.
